

JANUARY Monthly Numerology Report 2018

Introduction

Welcome! Thank you for visiting me, and our website. First of all, if you're new to Numerology, I'd like to take a minute and explain what it involves. Numerology consists of the study of numbers, and the energy that's behind each number. Many ancient cultures believed in numerology and it's a study that's been around for thousands of years. We're here to take the energy and meanings behind each number and lay them out for you in an easy to follow and easy to understand format.

Numerology allows us to use information that was learned thousands of years ago about the energy in numbers and use that information to apply to everything in the world around us. Everything in the world around us is made from energy and if you know the energies involved you'll be able to understand everything a little bit better. Numerology translates that energy into a way to understand unexplainable things.

Numerology does not tell you what to do to have the perfect life; it explains to you what energies are represented in the numbers in the world around you, in the things around you. If you understand this information, you can then apply it and use guidelines to apply this knowledge to particular situations in your life. For example, you probably behave differently in December than you do in August.

Some of this certainly has to do with things like weather limitations or seasonal changes, and some just has to do with holidays that are celebrated in these times. You probably wouldn't wear a sweater and carry around mistletoe in August, for example. But, have you ever stopped to consider that the different vibe or feelings in each of these months also has something to do with the energy in each month or week of the year? Each day has its own energy, each date has its own meaning.

You may have been practicing numerology since childhood and just never realized it. Does the combination A1 mean anything to you? Sometimes people use that combination to name products, like A1 Steak Sauce, or to describe someone or something top-notch, or alpha. 1 is

the number associated with the letter A. 2 is usually the number associated with B, and 3 is the number associated with the letter C, or so on and so forth. But I bet you knew that already.

Here's another example — when the date 07/07/2007 came around, there were record numbers of people who choose to get married on that date. Some thought 7/7/7 was a really cool combination of numbers, others decided it was a lucky number to them. Some people even got married at casinos or did Las Vegas style themed weddings. Have you ever heard of someone trying to get married or have a baby on a certain date, or more importantly, not on a certain date? Numbers, and the energy that they contain, are so very important.

There are a couple of different ways you can go about using numerology to interpret situations. Let's say for example, you have a friend named Bob. Numerology is tricky when using it on friends, it's always better to have a broad sense of understand based on a super specific understanding, but let's just use this as an example.

You could assign a number to each letter, B = 2 (2nd letter of the alphabet), O = 15 (15th letter of the alphabet), B = 2. If you add those together, you get 19. You can use 19, as a whole number, or add the individual digits together to get a single digit number, which is more powerful. $1 + 9 = 10$. $1 + 0 = 1$. 1 would be the number you use going forward to describe Bob and the energy associated with him.

Or, you could assign A-I 1-9, J-R 1-9, S-Z 1-8, and so forth. Here's a table if that seems confusing:

1	2	3	4	5	6	7	8	9
A	B	C	D	E	F	G	H	I
J	K	L	M	N	O	P	Q	R
S	T	U	V	W	X	Y	Z	

In this case, B would equal 2, O would equal 6, and B would equal 2. $2 + 6 + 2 = 10$. $1 + 0 = 1$. Same answer, just a different way of doing it. You could also keep double digits and not go to a single digit, but it varies in a case by case scenario.

Have you ever heard someone say "Oh, I'm glad you named that child George, he looks like a George, how did you come up with that name?" — Certain names have meanings, and some of those are related to origin language, meaning over time, if the name appeared in the Bible, or some kind of family story, or the etymology of the words used to create the name. But names, and letters have numbers that go with them and a certain energy assigned to them. If you've ever thought a name fit a person or didn't, chances are you might have been using first

impressions or a preconceived notion of the meaning of that name, but you probably didn't even consider what energies numerology brings to the table. In Bob's case, a number one is typically an alpha, a leader, someone who is knowledgeable and experienced about his particular field. People look to Bob for his opinion. Is this true about the Bobs that you may have come in contact with?

So, you see, you really can apply numerology to any scenario, person, place, or thing, but for the purposes of this report I'm going to let you know what to expect for the weeks of this month and this year so that you can live your entire life to the fullest.

The Year 2017

The Number 2

The number two can represent two people, like luck in love. It may also be used to indicate the month of February, the day of 2 or 20 or 22, or the time of 2 o'clock or 2:22, more specifically. It is not surprising that 2 is the month that is luckiest for two people in love, which holds the holiday of Valentine's Day. Two can mean a pair, and can literally refer to cards and poker, but less literally be addressing the time frame of upcoming luck, or that your riches (or problems) will double.

In a simple way, most people believe that their lucky numbers will bring them riches through a literal sense, and most likely through gambling. These people may try to play the number on a roulette wheel, buy a lottery ticket with the lucky number, or make a bet on an athlete or race horse wearing the number. However, the lucky numbers divined for you can and should be taken much further.

You can use these numbers for your wedding date, grand opening date for your business, even as some form of your new home address. You can use your lucky number as a number, or can convert the number to a letter- for example, do you remember before that 2 would refer to the letter B? You can make sure to pump only your lucky number of gas, for example, as well, like \$22.22, to increase your fortune on the road.

As it relates to Lenormand Cards, the card that applies to the two is the clover, another universal symbol for luck! What a lucky month you're having! The clover card depicts the symbol of a three leaf clover, four leaf clover, or sometimes an entire patch of clover. We're used to seeing the symbolism of clover in our society, so it should be no surprise to you that this symbol stands for luck.

Examples of this symbol can be seen everywhere in modern society, including Good Luck Bear, the Care Bear cartoon character that is a bear with a green four leaf clover on his belly, and just about any St. Patrick's Day, Luck of the Irish, or Leprechaun illustration. Trefoil is

another name for the clover. You can also see the quatrefoil, a four petaled clover, as an ancient symbol has been popping up throughout fashion in such brands as Van Cleef & Arpels, for example.

The quatrefoil reached a peak popularity in the Gothic and Renaissance eras, both in design and architecture, but it really began to be seen much earlier, in the earliest of Mayan communities. Even then it was a good luck symbol, of rain to come, and fertile lands. This clover indicates that you will soon come across a good deal of luck and fortune. It could be referring to luck in a spiritual sense, or it could be referring to the more standard luck definition of physical assets, money, or fame.

January Week One 01/01/2018 – 01/07/2018

Numerology Equation

$$01/01/2018 \ 0 + 1 + 0 + 1 + 2 + 0 + 1 + 8 = 13 \ (1+3) = 4$$

$$01/02/2018 \ 0 + 1 + 0 + 2 + 2 + 0 + 1 + 8 = 14 \ (1+4) = 5$$

$$01/03/2018 \ 0 + 1 + 0 + 3 + 2 + 0 + 1 + 8 = 15 \ (1+5) = 6$$

$$01/04/2018 \ 0 + 1 + 0 + 4 + 2 + 0 + 1 + 8 = 16 \ (1+6) = 7$$

$$01/05/2018 \ 0 + 1 + 0 + 5 + 2 + 0 + 1 + 8 = 17 \ (1+7) = 8$$

$$01/06/2018 \ 0 + 1 + 0 + 6 + 2 + 0 + 1 + 8 = 18 \ (1+8) = 9$$

$$01/07/2018 \ 0 + 1 + 0 + 7 + 2 + 0 + 1 + 8 = 19 \ (1+9) = 10 \ (1+0) = 1$$

$$\text{Days Numerology Total} = 4 + 5 + 6 + 7 + 8 + 9 + 1 = 40 \ (4+0) = 4$$

The Number 4

Four is the number that represents a stable base. It's required to have four sides when you're making a box, or building a house of cards. You need four legs on your desk or table or chair. Four holds things up and keeps them together. You may double date in fours, but three's a crowd. Five people results in a fifth wheel. Four is one of the most fundamental numbers that there can be, and without it, everything that we've built falls down. Four can also mean four days, four weeks, four months, four years.

The musical artists Beyoncé and Jay-Z have done a lot of things according to the number 4, which is very important to them. Both of their birthdays are on the 4th, and their wedding anniversary is 4-4 — they even have IV wedding ring tattoos. Beyoncé also has an album

named 4, and has released albums on dates with four or adding up to four. Jay Z just released an album called 4:44.

Finally, their daughter Blue Ivy, is named a first name with 4 letters and a second name Ivy as a shout out to the roman numeral four. They are celebrities who strongly believe in the stable powers of the number 4, and apply it to build not only their careers, but also their family.

For this first week to be a 4, it means that in this first week of the month, you will round everything up, stabilize everything, and make a giant step to move forward to get stability attained. You will establish connections, restore balance to your life, and get rid of anything negative. You should be entering the "4 state", a state of perfect stability. You have a blank slate, an empty house, and it's time to start decorating and moving up to the next level.

As it relates to Lenormand cards, the card closely related to the number four is the house. House #4 — The number four goes very well with a home. There are four walls to every home, four sides to every window, four corners to every property. Without four, nothing would be complete.

From childhood, as we play with crayons and paper, one of the first images we all learn to draw is a stick figure person standing next to a house. This house may have clouds and a sun in the sky, and a beautiful green grass garden, with flowers blooming throughout. Regardless, it always has windows, a door, a roof, and four walls. All of our drawings and all of our kids' drawings of houses, although different, mostly look exactly the same.

The house is one of the most symbolic things to us from the start. It's right up there with a heart, a clover, a smiley face, and a cross. The house is our home. It is the place where we feel comfortable. It is the place where we lay our heads at night. It is where we shelter our families, pets, and earthly belongings. It's a very big deal to turn over a key to our significant other, or to move a spouse into our home. The act of doing this represents not only just a change in living environment, but a new change in life stages altogether.

A house card can indicate that we feel unstable in our lives, or that that stability is likely to come to us shortly in the future. It may bring up feelings of safety, security, and the ability or inability to save finances. We may feel like our household is behind on chores, bills, and financial obligations. Homes are often the first way we describe someone's wealth. We describe people as living in a farmhouse, or shack, or a mansion.

We rarely ever just say that someone has a house unless we are describing when they first move into it or buy it. Homes to us are literally our shelter against the rain, our protection against the cold, and our barrier against outsiders. Figuratively homes represent our success, our failure, and our projects ahead.

Action Items for the Week

This week is your base week. The four indicates that you need to have your life balanced and stable so that you can start off this year on the right foot. Luckily, it also coincides with luck. What are your goals for this year? You need to write down all of the things you want to accomplish.

A fresh start, like a new home, can open your mind to positive thoughts and raise your potential for success. Stability is the base you need to get your year in motion. Be sure that all of your finances are in order and that you take some time this week to meditate or do some yoga. Clear thinking can help you organize your goal sheet.

Affirmation for the Week

“I fully appreciate that my life is at a stage of stability and I will make clear plans so that I stay in control. I am confident and ready to start my year with positive thoughts and no stress. I will write down my goals and take a minute to meditate on my future..” Repeat this affirmation 2 to 3 times daily this week.

January Week Two 01/08/2018 - 01/14/2018

Numerology Equation

$$01/08/2018 \ 0 + 1 + 0 + 8 + 2 + 0 + 1 + 8 = 20 \ (2+0) = 2$$

$$01/09/2018 \ 0 + 1 + 0 + 9 + 2 + 0 + 1 + 8 = 21 \ (2+1) = 3$$

$$01/10/2018 \ 0 + 1 + 1 + 0 + 2 + 0 + 1 + 8 = 13 \ (1+3) = 4$$

$$01/11/2018 \ 0 + 1 + 1 + 1 + 2 + 0 + 1 + 8 = 14 \ (1+4) = 5$$

$$01/12/2018 \ 0 + 1 + 1 + 2 + 2 + 0 + 1 + 8 = 15 \ (1+5) = 6$$

$$01/13/2018 \ 0 + 1 + 1 + 3 + 2 + 0 + 1 + 8 = 16 \ (1+6) = 7$$

$$01/14/2018 \ 0 + 1 + 1 + 4 + 2 + 0 + 1 + 8 = 17 \ (1+7) = 8$$

$$\text{Days Numerology Total} = 2 + 3 + 4 + 5 + 6 + 7 + 8 = 35 \ (3+5) = 8$$

The Number 8

People with the lucky number 8 have strong intuition and insight, and they have the keen ability to explore things uncovered or undiscovered, like undiscovered talents or abilities that may be lying within. The number eight is seen as super lucky by many cultures, the Chinese culture being one in particular. The Chinese will go out of their way to include number 8's in their name numerology, home and business addresses, telephone numbers, and web addresses.

Some addresses including the number 8 are so sought after that millions of dollars are paid just to get the maximum number of 8's possible. Part of this is because the number 8 is pronounced "Ba", and is very close to the word "Fa", for wealth and fortune. As an example of

the Chinese's amazing devotion to the number 8 — the Olympic games hosted in Beijing commenced at exactly 8 o'clock and 8 minutes on the 8th day of the 8th month in 2008.

As it refers to Lenormand cards, the card for 8 contains the coffin symbol. This pairing makes sense, as the 8 is the closest number to the infinity symbol, which is often pictured as a sideways 8. Infinite and eternal, these numbers can be closely related when thought of in that sense. Ideas that are not acted upon are ultimately laid to infinite rest.

As it applies to a period of time, 8 signifies that this is a month where if you do not act upon your ideas, hopes, wishes, and dreams — they will ultimately be laid to infinite rest. This is your time, and you have luck on your side, but you need to act quickly because the coffin is working against you.. Combined with 2017, which is a magnificent year of change and revolution, October and it's number 8 could bring that year of change along by forcing you to do things you were afraid to do in the past.

You may try things you've always wanted to try, like sky-diving, you may take that business offer that terrified you in the past. You might go back to school or try out another career path. You may have something you want to submit to a contest or audition for something you were always hesitant about in the past.

When the 8 is around you, you can be assured that you will reap what you've sown. The 8 balances the material world with the immaterial world. It is a strong number that usually comes with a significant change. Acting on your ideas, hopes, wishes, and dreams can be a very delicate decision making process.

Action Items for the Week

This week can be positive and negative. Have you heard of the saying "be careful what you wish for"? Swift decisions can be dangerous this week. You made stable decisions last week with the four, and should continue to build on them this week. You have a solid foundation and it will now allow you to stay focused on details as you venture into new territory. Don't be misled or wowed by 8's lucky power.

You must really weigh your pros and cons when deciding on your move. A potential brand new journey is upon you this week but you need to take care when planning your next step. The introduction of a new path of opportunity that was not there before can fit right into the goals you wrote out last week. However, you must be courageous and careful at the same time.

Affirmation for the Week

"I will take my time when making decisions about unsure territory this week. I know that there is a fine line between the positive and negative and that I will be both brave and bold, but also

cautious as I plan my next move. I will not let hesitation be an obstacle and I will keep moving forward towards my goals.” Repeat this affirmation once or twice per day for the rest of this week.

January Week Three 01/15/2018 - 01/21/2018

Numerology Equation

$$01/15/2018 \ 0 + 1 + 1 + 5 + 2 + 0 + 1 + 8 = 18 \ (1+8) = 9$$

$$01/16/2018 \ 0 + 1 + 1 + 6 + 2 + 0 + 1 + 8 = 19 \ (1+9) = 10/1$$

$$01/17/2018 \ 0 + 1 + 1 + 7 + 2 + 0 + 1 + 8 = 20 \ (2+0) = 2$$

$$01/18/2018 \ 0 + 1 + 1 + 8 + 2 + 0 + 1 + 8 = 21 \ (2+1) = 3$$

$$01/19/2018 \ 0 + 1 + 1 + 9 + 2 + 0 + 1 + 8 = 22 \ (2+2) = 4$$

$$01/20/2018 \ 0 + 1 + 2 + 0 + 2 + 0 + 1 + 8 = 14 \ (1+4) = 5$$

$$01/21/2018 \ 0 + 1 + 2 + 1 + 2 + 0 + 1 + 8 = 15 \ (1+5) = 6$$

$$\text{Days Numerology Total} = 9 + 1 + 2 + 3 + 4 + 5 + 6 = 30 \ (3+0) = 3$$

The Number 3

Literally, the number three can represent March, which may be the month of upcoming travel for you, love, an anniversary, the month of a child's birth, or another significant event. 3 o'clock or 3 weeks or years from now are also possibilities, when referencing the number 3. Multiples of 3 can also be considered, like 2021. In Christianity the number 3 would represent the Holy Trinity of Father, Son, and Holy Ghost which are omnipresent and anywhere and everywhere, through space and time.

The Pythagoreans thought that 3 was the first true number. It's also symbolic of triangles, it's the first number to form a geometric shape. In fairy tales and religious rituals things are often

said or done three times. We use the expression, “third time’s the charm!” — it indicates that often times you don’t succeed on the first or second try, but on the third.

We also count to three when we want to do something in synchronicity. It’s a very powerful number. Three colors of light are needed to make all other colors of light, three colors of paint are needed to make all other colors of paint.

Three is a very lucky number for a lot of people. Musical Artist Chance the Rapper wears a “3” on his baseball cap, and says it’s to signify, the Holy Trinity, his 3 person family, his 3 Grammy awards and his 3rd project. There are mentions of 3 in sports as well. If a horse wins all three major derbies, it conquers the “Triple Crown.” If a bowler hits three strikes in a row, it’s called a “turkey.” Many folks who have luck with the number 3 find that they continue to have good luck on the 13th and 30th as well.

If you’re not sure what your lucky numbers are, or if 3 is one of them (it likely is), [you should find out what they are as soon as possible to ensure that you have as lucky of a future as possible.](#) Have you ever heard the saying “comes in threes”? it’s important that you know if 3 is a lucky number for you, because if it isn’t, you need to be prepared for your ship to bring bad news, possibly in threes.

As mentioned a second ago, the ship is very important to the number 3, as it relates to Lenormand cards. The ship card depicts a large water vessel, sails fully outstretched, moving across the seas. The boat or ship is one of the most easily discernible symbols, and from first glance it reminds us of stories of travel that we’ve heard from childhood. The ship represents a real life voyage to a far away destination, a journey that may even bring to the traveler riches or cargo from a far away land.

The ship card may also refer to a long-lost love returning to you, or exciting news from someone you haven’t heard from in a very long time. You may even clean out a garage, basement, or forgotten closet and find a “message in a bottle.” Just like looking forward to an upcoming trip, the ship card indicates that you will put hopes or resources into an opportunity and hope for a positive return. It may be a new business venture or partnership, even an impending marriage. In a literal sense, it may even refer to an upcoming cruise or fishing expedition.

Most of the time, though, the ship card is speaking to the journey ahead and the joys and souvenirs it will bring. Life is a journey and not solely about the destination, so as the French would say, Bon Voyage! It’s time to break that bottle of wine against the side of the ship and take off on an amazing adventure.

Action Items for the Week

A new relationship is upon you. This could be a business venture, a friendship, or something more personal. This new journey is likely to be related to the realization of a new path or opportunity that appeared last week. Do not lose track of your main goals for this year. The life journey is part of the bigger picture and you must keep track of the details in the present.

There are three things that you can do immediately: First, be excited about your new blooming relationship. Second, be sure that you stay on task to reach your goals, and third, stay confident and undistracted by the twists of life. Your new path should present itself in the next 3 days, 3 weeks, or 3 months.

Affirmation for the Week

“I must keep my eye on my final goals and be sure that I follow my plan carefully and step by step.. I will be sure not to run from the support and stability that I have in my life from my friends, family and work. My heart is open and I am excited about the chance of a fresh start that has been given to me”. Repeat this once a day this week.

January Week Four 01/22/2018 - 01/28/2018

Numerology Equation

$$01/22/2018 \ 0 + 1 + 2 + 2 + 2 + 0 + 1 + 8 = 16 = (1+6) = 7$$

$$01/23/2018 \ 0 + 1 + 2 + 3 + 2 + 0 + 1 + 8 = 17 = (1+7) = 8$$

$$01/24/2018 \ 0 + 1 + 2 + 4 + 2 + 0 + 1 + 8 = 18 = (1+8) = 9$$

$$01/25/2018 \ 0 + 1 + 2 + 5 + 2 + 0 + 1 + 8 = 19 = (1+9) = 10/1$$

$$01/26/2018 \ 0 + 1 + 2 + 6 + 2 + 0 + 1 + 8 = 20 = (2+0) = 2$$

$$01/27/2018 \ 0 + 1 + 2 + 7 + 2 + 0 + 1 + 8 = 21 = (2+1) = 3$$

$$01/28/2018 \ 0 + 1 + 2 + 8 + 2 + 0 + 1 + 8 = 22 = (2+2) = 4$$

$$\text{Days Numerology Total} = 7 + 8 + 9 + 1 + 2 + 3 + 4 = 34 \ (3+4) = 7$$

The Number 7

The number 7, like the number 8 is also often considered lucky, but in a more universal way. Many people choose to use dates with 7's as their anniversary or wedding dates. Recently, 07/07/07 was a big wedding day where hundreds of thousands of couples got married all over the world. You also see lucky number 7 on casino advertisements and as a winning spin on slot machines. In time, 7 can refer to the 7th day, 7th month, or 7 years. Or also combinations of years, like 2017.

As it relates to Lenormand cards, the card closely related to the number 7 is the The snake, or serpent, is one of the most ancient and recognizable symbols there is. Anyone who was raised

according to Christian beliefs or who has read the Bible knows about Adam and Eve and the snake symbolizing original sin and evil. The snake is also used in medical insignia — as the caduceus. You may have seen this logo before on hospitals or ambulances. The story goes in ancient mythology that Hermes used his staff to separate two snakes who were fighting. Upon forcing his staff down into the ground, the two snakes coiled around it and remained in perfect harmony forever.

The snakes can also be symbolic of healing and achieving harmony. So a sighting of a snake is not always a completely negative thing. The Greeks regarded snakes as sacred, and used them in healing rituals, as their venom was thought to be a cure for many conditions. Their skin-shedding was viewed as a symbol of rebirth and renewal. Regarding the snake, 7 can refer to the amount of time before the snake will strike, or the amount of time and anti-venom needed to recover from said strike.

The snake card indicates that evil may be lurking ahead in the high grass or around the corner. It's slithering, sinister, and ready to attack. It's up to you to be extremely alert and to attempt to avoid it. You may bow to the temptation or not. Snakes may be venomous, and their level of venom may correlate to the time they strike and the location you find them.

Although a snake's venom can kill you, a different snake's venom is needed to make the anti-venom that can save you, so as mentioned before, they do have two different sides to them. This can lead to you being easily manipulated or tricked by them.

In pop culture, references to the snake abound, as an example, have you ever heard of the Paula Abdul song "cold hearted snake"? It's an analogy about a terrible, cheating, and lying boyfriend. A snake can indicate betrayal from someone you love, an illicit affair, lying, cheating, or thievery. Receiving a snake card may be warning you that something you thought was one thing, may indeed, turn out to be another.

A job that you thought was going to be amazing can actually turn out to be more hours, more work, and less money and respect. Or perhaps a new lover that you thought might be a knight in shining armor turns out to be a complete dud, who wants to borrow money from you. There can be snakes in the grass everywhere, and it is your job to look around and analyze your surroundings with intelligence and alertness, so that they don't bite you. Think over each decision carefully before you make it.

As it relates to this week, the 7 and snake indicate that you have some hard work to do. You have had a lucky week followed by a more tedious week, and now it's time to really dig down deep. There is something that you really don't want to do, but you very much need to do it. You have been dreading it for a very long time. It could be paying a bill, rectifying a bad relationship or disagreement, doing a chore that you've been putting off, going to see a doctor, or starting something new that you have been avoiding, like going to the gym.

This thing is necessary for your life and you know it, and you've been putting it off because it's something that you don't necessarily want, and are really dreading having to do. It's time this week to really grab that snake out of the bushes and tackle the issue dead on, you'll feel so much better and relieved when you do.

The Numerology for the month of January in combination with the year 2018 is showing to be a positive and supportive combination. Each of these 4 numbers need each other to flourish. The numbers are powerful in themselves but this specific combination in support of each other will push out any doubt of success. Each number can be positive or negative when seen alone, however, together, the positive value outweighs the bad. If you look at it, combined, they equal 22 and when added concludes the number 4. The 4 alone is positive in nature as it relates to stability and our home. This is the best possible way to begin a new year, secure, stable and whole.

Action Items for the Week

This is your challenge week. You will be tempted to stray from your path this week. Keeping things on the straight and narrow is a difficult thing to stay focused on given the many twists and turns that come with life. The fact that the lucky number seven is associated with the snake card reminds us to be wary of our surroundings and others who might feel jealous or cheated by our positive behaviors.

This week could be a small set back for you but you will be able to make it through on top. A little extra effort goes a long way. The numerology for this month and year seems to be an emotional rollercoaster as is life, but you can appreciate the fact that you took the time to write down your goals and created a clear path to follow. Distractions will always be there along the way but your goal sheet will make it easy to get right back on that path, and the beginning of 2018 will be an extremely prosperous one for you.

Affirmation for the Week

"I welcome the challenges this week and I will not let the distractions get in the way of my prize, which is ultimately a healthy and happy 2018. I will be excited and open minded to the new relationship and opportunities that the universe is presenting to me. I will not let negativity hold me back and I will make the extra effort this week to keep my head up and push forward to get closer to my desires, dreams and goals." Repeat this affirmation in the mirror two times daily through the end of January.

CONCLUSION TO REPORT

Well friend,

I hope you have enjoyed your personalized report. The month of January is a powerful one, and I hope that it productive and profitable for you. As specific as I tried to be I also left things a little vague because they are open to your own interpretation. You have your own energy that is going to be applied and your own energy will very much determine the course of the way things progress. Feel free to take the numbers for each day and each week and add in your own initials, birthdays, and lucky numbers to get a report even more specific to you.

Please feel free to contact me if you have any additional questions. I'm always available to you and hopefully you will check back for additional readings in the future and as the months and weeks continue on. You are becoming an amazing numerology student and this is just the beginning of your journey of learning how to create positive energy within your life by understanding the energies around you.
